

ADDENDUM “A”

Request for Proposals RFP #11-0208

VHF Simulcast Paging System

THIS ADDENDUM HEREBY CLARIFIES and MODIFIES the Request for Proposals #11-0208 for the VHF Simulcast Paging System issued on Tuesday, March 1, 2011. This Addendum is being issued as a result of Randolph County recognizing that the following specifications should not have included in the RFP.

**The following sections of RFP #11-0208 for the VHF Simulcast Paging System
ARE BEING DELETED and SHOULD NOT BE CONSIDERED
in the proposal submitted by Vendors:**

1.1 INTRODUCTION

B. Randolph County, North Carolina, (County) also requires vendors to propose a design that provides area reliability of 95 percent throughout the service area of each County fire district. A copy of the map of the Randolph County Fire Districts will be made available upon request. Vendor predictions and associated guarantee of coverage shall be based on the same use cases as item 1.1.A.

1.3 PROJECT SUMMARY

- D. General requirements for microwave network:
2. Digital, hot standby or loop network for new equipment
 3. Capacity:
 - a. Minimum of one T1 capacities per link shall be provided.

In an oversight, Randolph County failed to include **Appendix E** that was referenced in Section **2.2 SITE SELECTION and ACQUISITION**. **Appendix E** is being included in this addendum.

2.2 SITE SELECTION AND ACQUISITION

A. The County has provided a list of tower sites that may be used in engineering the specified coverage. These sites are summarized in **Appendix E**. Use of these sites in the system design is preferred. The Vendor shall propose a system design to meet the coverage requirements stated in the RFP.
